

FEE-FOR-SERVICE SUPPORT AT HOME

Designed by you,
Supported by us.

Life has its challenges, but getting help at home shouldn't be one of them. If you're waiting to receive Support at Home funding, or you haven't been assessed just yet, fee-for-service support at home can help you access the care you need, when and how you need it.

With fee-for-service, you can pay a home care provider directly for the services you choose. Services are usually charged at an hourly rate and are not subsidised by the government.

It's a great option if you're looking for more control over your care. You can plan your day, your way, knowing someone is there to help make it happen.
